- easy to lower and easy to stow
- stow away safely and do not interfere with load
- cost effective
- strong, robust and exceptionally durable

The Solid Step Truck Ladder is engineered with the highest quality products available to provide high quality fall protection systems for the transportation industry.

The Solid Step Truck Ladder is the answer to every trucker's need for a safe, easy way to access trailers without hurting themselves. Solid Step Truck Ladder attach to the rub rail on trailers in seconds, and store quickly under the bed for easy access.

Providing safety tools is a way to protect yourself, show your drivers that safety is a priority, and reduce injury claims. Make the Solid Step Truck Ladder part of your accident prevention program.

The Solid Step Truck Ladder was built with drivers in mind. With an overall length of 50 inches and a weight of 25 lbs., the Solid Step is roomy and adaptable without being bulky.

Solid Step Truck Ladders are engineered to hang at an optimum 22° angle with no-skid steps. The ladders are all aluminum construction, riveted and welded with rust proof steel hangers. The ladders have a 300-pound weight capacity.
